### HOW TO PLAY

just like a real pet, your giga pet needs you to grow up happy and healthy. at various times, your pet will require a certain kind of attention from you. the unit will BEEP and the ALERT icon will light up.

now you've got to figure out what your pet needs! if your pet is hungry, feed it. if your pet is lonely, play with it. if your pet is dirty, give it a bath! there are many different ways for you to interact with your pet. the trick is to figure out what your pet needs from you! use the LEFT/RIGHT keys to move to the activity you want, and press enter. here are the activities:

### FEED

when you select this activity, you will be given a choice of foods for your pet. use LEFT or RIGHT key to toggle between healthy food and treats. press enter to feed. your pet needs healthy food to grow, and treats to stay happy.

### SLEEP

select this icon to turn the light out when your pet wants to sleep, or to turn it back on when your pet is awake. your pet will be happier if you turn out the light for it when it needs to sleep.

### CLEANING

sometimes your pet will leave droppings, and you must clean them up if there are droppings on the screen. select CLEANING to clear them away. if there are no droppings on the screen, you can select this activity to give your pet a thorough, all-over cleaning. if you want your giga pet to stay healthy, don't leave droppings lying on the screen, and don't let your pet walk around dirty.

### SCORE

choose this icon to check on your pet's progress. use the LEFT/RIGHT keys to display screens showing your pet's AGE, WEIGHT, HEALTH, HAPPINESS, HUNGER, DISCIPLINE, and TOTAL SCORE. HEALTH and HAPPINESS range from 0 (bad) to 100 (good) and help you determine what your pet needs. if HEALTH or HAPPINESS falls below 20, you should take care of your pet right away. the final statistic, SCORE, is an indication of how well you are doing. the higher your score, the better you are doing. your score should grow as your pet grows.

### TRAINING

your pet can do all sorts of interesting things. if you see your pet do something interesting, you should encourage it to repeat this activity. select the TRAINING icon and the word REWARD will appear on the screen. press ENTER again to reward your pet. you should reward your pet often if you want to train it properly.

if your pet has been properly rewarded for the activity you select, it will obey your commands! don't forget to reward it if it gets the trick right!

### ALERT

you cannot choose this icon. instead, this icon will light up to let you know that your pet needs something.

### MEETING YOUR PET'S NEEDS

if you try to select an activity that your pet does not want to do, it may refuse. try selecting a different activity until you figure out what your pet needs.
