2. Basic Game Play For 2 Players:

- A. Each turn consists of both players taking the top card from their piles and placing it faceup AT THE SAME TIME, in the center of the table. The player who turns over the more powerful card, takes the cards played and places them facedown on the bottom of his/her pile. If the two cards are the same, a "battle" takes place.
- over ◇

B. Battle - When two matching cards are turned up, a "battle" begins. Both players continue turning over one card at a time until one player turns over a card that matches the card that was originally turned up. Then, the battle is over and the player who turned over the matching card wins all of the cards in the battle. These captured cards are placed face-down at the bottom of his/her pile.

EXAMPLE: If two Smurf cards are turned over, the players continue until another Smurf card is played. None of the other cards (not even Gargamel) have any value. Whoever turns up a Smurf card first wins the battle and all cards in the battle.

If during a battle both players again turn over matching cards, the battle continues until only one player turns over a card that matches the one that started the battle.

IMPORTANT: When a player loses all of his/her cards, he/she is out of the game.

HOW TO PLAY WITH 3 OR 4 PLAYERS:

1. When there are more than two players, the game is played in pairs, taking turns around the table, to the left.

EXAMPLE FOR 3 PLAYERS: Player #1 plays one hand with Player #2; Player #2 plays one hand with Player #3; Player #3 plays one hand with Player #1.

HOW TO WIN THE GAME:

The player who wins all of the cards in the deck is the winner!
